General Cleaning / Floor Cleaning

Choose Eagle
for custom formulated,
environmentally friendly,
industrial cleaning and process chemicals.

General Maintenance

» A clean working environment is essential for productivity and efficiency. Eagle offers innovative solutions, tailored to your specific needs, size of operation, equipment requirements, and industry regulations. We offer a complete line of concentrated or ready-to-use industrial cleaners. Floor scrubbers, machine cleaning, power washing, steam cleaning and general sanitation are all part of a comprehensive cleaning protocol, and Eagle is committed to maximizing your investment by completing the cleaning operations on time and within your budget.

Eagle manufactures a complete line of:

- » Citrus degreasers
- » Low foaming floor cleaners
- » Oil splitting cleaners
- » Powdered cleaners
- » General cleaners
- » Biological cleaners

Complete Floor Cleaning Solutions

- » Designed to clean grease, dirt, tire marks, inks, cutting oils, other soils off your floors
- » Good for use with floor scrubbers, mops & buckets, and other methods of application
- » Formulated to work on concrete floors (sealed, unsealed & painted), tile, terrazo, stone & other floor surfaces
- » Capable of building and maintaining a shine on concrete floors
- » Floor cleaning is a universal need, and Eagle has a wide array of products available to clean all types of floors in any facility. We provide a complete selection of high or low foaming detergents, along with custom-manufactured solutions for your specific requirements.

Innovation

Custom Solutions

Eagle offers more than 2700 different liquid, powder and process chemicals to meet a multitude of applications. Each product is designed to maximize cleaning and be environmentally friendly. When special needs require a custom formulation, our experience and state-of-the-art laboratory is available to create and quickly deliver a solution to solve your industry-specific problem.

Quality Control

Eagle manufactures and delivers a diverse line of cleaning products. With no "middle man," your Eagle representative is your partner in the design and planning of an efficient cleaning regimen. Each batch is tested and documented to meet strict quality control standards. This ensures that your cleaning operations will always yield the same results—no surprises or need to repeat an operation. Our state-of-the-art laboratory monitors the quality control of all Eagle products and maintains vigilance in product improvement, environmental regulation and product development.
